TECHNICAL DATA SHEET

NAME: BIG MAMA WIPES

PART NUMBER(S): BR001

PRODUCT DESCRIPTION:

When you have a tough job, reach for **Big Mama Wipes** in a convenient Pop-Up Box! With our innovative design, Big Mama Wipes have the highest fluid capacity on the market. These wipes can lift and release fluid. They provide 75% more oil absorption and 35% more water absorption than competing brands. They deliver superb fluid handling which allows you to accomplish clean wiping applications like never before. They're ideal for solvent wiping, surface preparation, equipment cleaning, repair, and maintenance tasks. When you need durability, cleanliness, and high fluid capacity, reach for our Big Mama Dry Wipes. They contain no glues, adhesives, or binders, which means there are low extractables for very clean solvent wiping. They feature outstanding fluid reservoir capacity for absorbing or delivering fluids – so you'll waste less of your valuable solvents (they release 90% of the solvents they absorb, outperforming rags and reducing your solvent spend). In addition, these cloths feature increased durability for continual and repeated use, just like a cloth. Our innovative dispensing solutions are portable, so the wipes can go anywhere.

Features and Benefits:

- Low lint and low extractable (the compounds and contaminants that could wash out onto a surface), for clean solvent wiping.
- Reduce your solvent spend - these heavy-duty cloths have excellent fluid reservoir capacity (for absorbing and delivering fluids); they release 90% of the solvents they absorb, outperforming rags.
- Use wet or dry these ultra-soft, reusable cloths are ideal for heavy wiping, prepping surfaces with solvents and cleaning metal shavings.
- Ideal for clean manufacturing processes.

Uses:

- Wet or Dry
- Metal
- Wood
- Plastic
- Glass

Cleans & Absorbs:

- Caustics
- Oil
- Water
- Grease
- Dirt

Dimensions:

9"x17"

80 wipes/box

Quantities:

6 BOXES/CASE
