### COMPANY OVERVIEW

Green Chem Laboratories is a Certified Woman-Owned Small Business that manufactures and distributes innovative, eco-friendly commercial cleaning and industrial maintenance products. We are an industry leader and disruptor and specialize in creating multifunctional products. We firmly believe that one product should be able to do the job of three - not the other way around.

### CORE CAPABILITIES

Green Chem Laboratories created chemical formulas that are versatile, environmentally ethical, and sustainable. From there, we built on that momentum by ensuring our company operated with the utmost integrity and high standards. We are committed to creating products that meet unique customer needs and outperform others in their class. From deodorizers to drain care to degreasers, we've carefully considered every aspect of each formula to ensure that our product line is the gold standard of commercial cleaners and industrial maintenance products.
