

## TECHNICAL DATA SHEET

**NAME:** EARTH CARE BAGS

**PART NUMBER(S):** VA945

### PRODUCT DESCRIPTION:

**Earth Care Bags** can be used to eliminate odors by simply placing a bag near the odor. Earth Care Bags do not have to come in contact with the odor producer; it will pull the odors from the entire area. Earth Care Bags are negatively charged and odoriferous gases riding on positively charged particles. Because of this negative and positive attraction Earth Care Bags draws in odors like a powerful magnet. The odors are absorbed and neutralized without any cover ups or fragrances. The molecular structure of Earth Care Bags consists of billions of microscopic pores, which gives it a large surface area (exceeding the size of a football field). This enables Earth Care Bags to absorb phenomenal amounts of odors.

Earth Care bags do not cover up odors; they literally clear the air, leaving the air fresh and clean.

### Features and Benefits:

- Absorbs fumes and mal-odors like a magnet and neutralizes them in the bag
- Eliminates odors without direct contact with odor source
- Works effectively but not limited to chemical fumes, smoke, vomit, urine, feces etc

### DIRECTIONS:

Hang Earth Care Bags where odor is the strongest. Earth Care Bags work best if hung where air can flow through bag easily. Bags usually last up to four months depending on how strong odors are. When odors start to surface again, it is time to replace the bag.

**Quantities:**  
12 UNITS/CASE
