

TECHNICAL DATA SHEET

NAME: MILITARY FUSE WRAP (1" X 10')

PART NUMBER(S): MS191-R, MS191-Y, MS191-B

PRODUCT DESCRIPTION:

Military Fuse Wrap is a self fusing silicone rubber tape can be used to create an air and water tight seal. 500 degree temp rating, 700 PSI, and insulates up to 8,000 volts. 10ft long, 20 mil.

Features and Benefits:

- Silicone tapes stays flexible when wrapped around irregular shapes
- Withstanding -65°F to +500°F, silicone is useful in extreme climates
- Silicone is an excellent insulator with a minimum performance of 400V / mil.

Directions for Use:

1. Clean surface to be wrapped
2. Cut length off to be used (two or more tightly wrapped layers is ideal)
3. Start with stretching one complete overlap of tape onto itself
4. Stretch Military Fuse Wrap while continuing to wrap object with "half-laps", removing clear film as you go. Complete two or more tightly wrapped layers making sure to stretch wrap very taught.
5. End of tape at final wrap should be completely positioned on itself to ensure strong seal.

Note: Military Fuse Wrap will bond immediately upon contact once stretched out. E-Fuse Wrap will form a permanent, cohesive bond within 24 hours at room temperature. If removal is necessary, simply use a razor blade to cut tape.

Store in a cool, dry place. This product is provided without warranty, either expressed or implied, of fitness for a specific purpose. Because conditions and methods of use are beyond our control, seller will not assume responsibility for the use or misuse of this product. This includes, but not limited to, any consequential or incidental damages.

Available in: Black, Yellow, and Red.

Quantities:

- 10 UNITS/CASE (MS191-R)
- 10 UNITS/CASE (MS191-Y)
- 10 UNITS/CASE (MS191-B)
