EATS FATS, GREASE, OILS, AND ALL ORGANIC WASTE

NON-TOXIC

ODOR
ELIMINATOR

USE IN
FLOOR DRAINS

USE IN
GREASE TRAP

USE IN
SEPTIC TANK

4 BILLION
BACTERIA PER ML

THUNDER FROM DOWN UNDER is an ultra-concentrated, non-toxic liquid live bacteria that digests fats, oil, grease, feces and more. It prevents drain backups, reduces buildup in grease traps and interceptors, and neutralizes odors at the source. Our proprietary formula multiplies into the billions after injection, eating and digesting the waste. Designed for time-metered application, it provides 24/7 drain protection, odor control, and cleaner drains. Set it and forget it.
